## Survey: 2020 Ontario Budget

The government is seeking input on ways to make life more affordable for individuals and families, to create the right environment for businesses to invest and create jobs and improve the services people rely on each day. At the same time, we are looking for ideas on how we can spend smarter, to make government more efficient and deliver on our plan to balance the budget by 2023. The government has some significant fiscal challenges and must get value for every tax dollar it spends.

**We want to hear directly from you.**

Your ideas will help us develop the 2020 Ontario Budget.

**Consultation closes:** February 11, 2020

## Share your ideas

### 1. Making life more affordable

For many people across Ontario, it is difficult to make ends meet. In response, our government has reduced taxes, helped families with child care expenses and reduced the costs of post-secondary education.

**In what areas of your life are you experiencing challenges with affordability? Select all that apply.**

- Buying a home
- Renting a home
- Energy costs
- Prescriptions
- Postsecondary tuition costs
- I'm not experiencing challenges with affordability
